

Envy Me

Home Grown

You're J E A L O U S
Because I've got bigger breast
I know you're envious of me It's useless for you to pretend
That you want to be my friend
You can't control your jealousy Unhappy with yourself
Go pick on someone else
Miss Insecurity
You have no reason to hate me
I'm not your enemy
I'm not your enemy Why do girls analyze
Evaluate and criticize
Other girls that they don't know Spreading rumors, spreading lies
Talking shit when I walk by
You're always stepping on my toes Unhappy with yourself
Go pick on someone else
Miss Insecurity
You have no reason to hate me
I'm not your enemy
I'm not your enemy Jealous of me
Please don't be jealous of me
Please don't be jealous of me
Please don't be jealous of me I'm not your enemy
I'm not your enemy
To [Incomprehensible] your insecurities
Yeah yeah [Incomprehensible] Jealous of me
Please don't be jealous of me
Please don't be jealous of me
Please don't be jealous of me
