More

Avant

You make me want more
Got me anticipatin you more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
You make me want more
When I'm goin strong I want more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
You were at the peak,
Your knees was weak
And the sweat was dripping all over me
And I changed the pace
We took water breaks
We was at it, should've seen your face
And you knew exactly what to do
To keep me excited, girl you're so inviting
Know I know where I need to go
When it gets serious, girl
You make me want more
Got me anticipatin you more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
You make me want more
When I'm goin strong I want more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
Got your legs in a V
Then switch to an N
And it feels so good, we gotta go again, girl
When it happens, go to sleep
Wake up in the morning like it's make believe
And you knew exactly what to do
To keep me excited, girl you're so inviting
Know I know where I need to go

When I wanna hit it, girl

You make me want more
Got me anticipatin you more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
You make me want more
When I'm goin strong I want more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
It is unbelievable how you make me feel, girl
I'm lovin your touch, girl it seems unreal
Oh woa girl
Unbelievable how you make me feel, girl
Won't let go, can't let go
Baby girl, I really want you to know
You make me want more
Got me anticipatin you more
Girl I really, really want your body, body
The way you put it on me
Got me thinkin bout the very first time
More
When I'm goin strong
More
Girl I really, really want your body, body
The way you put it on me
Girl you got me thinkin bout the very first time
You make me want more
Got me on it on it on it baby
More
Girl I want it want it want it baby
I want your body, body
The way you put it on me
Girl you got me thinkin bout the very first time
More
When I'm goin strong
More
Girl I really, really want your body, body
The way you put it on me
It reminds me of the very first time that we made love
