

Familiar Realm

CKY

with the pressure on,intent is to run,
when you're feeling ineffective and dumb,
you bet it's true, the event is you,invaded by a swarm of confliction,
been penciled, in but never begun,
infected sense, the insistant one,if grieving is today, you've entered a familiar realm,
with pesimistic views, you've entered a familiar realm,break out and carry on,if responsibilities are ignored,
then the penalties will soon be endured,
potential risks beyond control,fortune isn't fame, you've entered a familiar realm,
if they've told you who to be, you've entered a familiar realm,break out and carry on,invaded by a swarm of
confliction,
been penciled, in but never begun,
potential risks are beyond control,if nothings left to say, you've entered a familiar realm,
if they all get in the way, you've entered a familiar realm,if they've told you who to be, you've entered a
familiar realm,
fortune isn't fame, you've entered a familiar realm
