Taking Control

Accidental President

When we get down, if we get down
We'll get up again, we'll get up again
And if we get down when we get down
We'll get up again, we'll get up again
And we won't take it when you won't take it, oh noYou've been taking control of our lives
And you've been letting us go
You've been taking control of our lives
And we won't take it when you won't take it, oh noAnd if we get down, how should we know?
If we'll get up again, we'll get up again
And we can take the right way out of here
I'll be sure to show you again
Then we won't take it when you won't take it, oh noYou've been taking control of our lives
And you've been letting us go
You've been taking control of our lives
And we won't take it when you won't take it, oh noI can't be the one to finally pull you out again, out again
But we won't take it when you won't take it, oh noYou've been making a joke of our lives
And you've been letting us go
You've been taking control of our lives
And you've been letting us goYou've been taking control of our lives
(I can't be the one to finally pull you out again, out again)
And you've been letting us go
You've been taking control of our lives
(I can't be the one to finally pull you out again, out again)
And you've been letting us go
