

# Still Here Waiting

## Eve 6

Lay off the coffee & the kofta & the coughing

Lay off the means to the ends

And mean what you say more often

Lay off the, laying off the smiling, the trying

Lay in me, lay on me, lay on me

It's another day the way things go

It's gonna go around again I know it

I'm still here waiting for you

Lay off the moaning, & the groaning & the stonings

Lay off the couch & all the cindescendry things

Lay off the, laying off the
