Run Around

The Quitters

One time, run around, don?t look turn for me to go your way
You left me here with out anything to love, I?ll tell you
I?ve had enough of your hands running round my brain
And I?ve had have enough of the way that you cause me pain
So slow down, run around your other side, walk with me instead tonight
We could be near like we use to be before
Ah girl, I need more of the times that you've turned me round
And there?s no time to turn away love I?ve found
So couldn?t we forget about today, start again from where we were
We use to dance out to space without a care
And our laughter come ringing and singing we rolled 'round the music
Blinded by colors come crashing from flowers
That sway as you stay here by me
Slow down, run around your other side, walk with me instead tonight
We could be near like we use to be before
Ah girl, I need more of the times that you've turned me round
And there?s no time to turn away love I?ve found, run around
One time run around, don?t look back turn for me to go your way
You left me here with out anything to love, I?ll tell you
I?ve had enough of your hands running round my brain
And I?ve had have enough of the way that you cause me pain, run around
