Skin Divers

Duran Duran

Walking under skies, waiting for the fall
Meet me at the corner shop, I'll show you it all
Free you of your mind, something you won't find
In the West End pages with your Google dirty fingers
(It's a skin dive)
In deep silence we are
Going underwater
(It's a lifeline)
Teardrop, bullets, all night
Dip into the water
Baby, that's what it feels like
When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
That's what it feels like
When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
Wipe us off the face of the human race
Whichever way you look it's indisposed or disgraced
Fighting on the shore, the hoi polloi want more
Howling bloody murder but it's nothing just a murmur
(In your skin dive)
In deep silence we are
Going underwater
(It's a lifeline)
Teardrop, bullets, all night
Slip into the water
Baby, that's what it feels like
When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
That's what it feels like

When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
A blushing rose is torn from these sugar walls
I've misplaced my future, could I please borrow yours?
Panic on the scene, you know what I mean
Anything you want to be, the only thing you want from me
(Is skin dive)
In deep silence we are
Going underwater
(It's a lifeline)
Teardrop, bullets, all night
Go inside the [Incomprehensible]
Baby girl, you're swimming a little too deep
So deep that I think you might hit a reef
I think you're low on oxygen and you're too glad to leave
Baby girl, swim to the top
Grab my hand and hold me and breathe
Baby, that's what it feels like
When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
That's what it feels like
When you come up for air
When you come up for air
You feel brand new
When you come up for air
When you come up for air
