

# Skin Divers

## Duran Duran

Walking under skies, waiting for the fall  
Meet me at the corner shop, I'll show you it all  
Free you of your mind, something you won't find  
In the West End pages with your Google dirty fingers  
(It's a skin dive)  
In deep silence we are  
Going underwater  
(It's a lifeline)  
Teardrop, bullets, all night  
Dip into the water  
Baby, that's what it feels like  
When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air  
That's what it feels like  
When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air  
Wipe us off the face of the human race  
Whichever way you look it's indisposed or disgraced  
Fighting on the shore, the hoi polloi want more  
Howling bloody murder but it's nothing just a murmur  
(In your skin dive)  
In deep silence we are  
Going underwater  
(It's a lifeline)  
Teardrop, bullets, all night  
Slip into the water  
Baby, that's what it feels like  
When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air  
That's what it feels like

When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air  
A blushing rose is torn from these sugar walls  
I've misplaced my future, could I please borrow yours?  
Panic on the scene, you know what I mean  
Anything you want to be, the only thing you want from me  
(Is skin dive)  
In deep silence we are  
Going underwater  
(It's a lifeline)  
Teardrop, bullets, all night  
Go inside the [Incomprehensible]  
Baby girl, you're swimming a little too deep  
So deep that I think you might hit a reef  
I think you're low on oxygen and you're too glad to leave  
Baby girl, swim to the top  
Grab my hand and hold me and breathe  
Baby, that's what it feels like  
When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air  
That's what it feels like  
When you come up for air  
When you come up for air  
You feel brand new  
When you come up for air  
When you come up for air
