Shooting Stars

Inca Silver

It's a full moon, bright as can be
Enough for the whole world to see
And the wind's danced with clouds
And stars shining so nakedly
I said you're something special
You're blessed too 'n' you guide me
You protect me from this cold world
When you hold me and don't let go of me
I said your wings are white, they're very wide
That's why you fly, yeah, yeah
Baby, angel girl with this world we're in
You're my cherubin, yeah, yeah
It's amazing
I can't believe this
So like a dream
The ocean tugs with God's galaxy
It's so beautiful when twilight arrives
As I sail 'n' move with the tides
This is what I see when he speaks to me
I said you're something special
You're blessed too 'n' you guide me
You protect me from this cold world
When you hold me and don't let go of me
I said your wings are white they're very wide
That's why you fly, yeah, yeah
Baby, angel girl with this world we're in
You're my cherubin, yeah, yeah
I know the phrase 'far-fetched' could never seem this far
But did I ever tell you you're my shooting star?
Warmer than a house faster than your car
Did I ever tell you you're my shooting star
It's a cold night but you would never know
And there are more blues than any I could ever see
It's like a melody, every breath is heavenly

A deep, deep sea, I'm lost completely when he speaks to me
Said you're something, you're special
You're blessed too, you guide me
You protect me from this cold world

When you hold me and don't let go of me
I said your wings are white, they're very wide
That's why you fly, yeah, yeah
Baby, angel girl with this world we're in
You're my cherubin, yeah, yeah
Said you're something special
You blessed too, you guide me
You protect me from this cold world
Oh you hold me and won't let go of me
I said your wings are white, they're very wide
That's why you fly yeah, yeah
Baby, angel girl with this world we're in
You're my cherubin, yeah, yeah
Said you're something special
You're blessed too 'n' you guide me
You protect me from this cold world
When you hold me and won't let go of me
I said your wings are white, they're very wide
That's why you fly, yeah, yeah, yeah
Baby, angel girl with this world we're in
You're my cherubin, yeah, yeah
Hey, look out the window it's raining
Rain, rain, rain, rain go away
Would you mind comin' back another day?
Rain, rain, rain, rain go away
Would you mind comin' back another day?
Rain, rain, rain, rain go away
Would you mind comin' back another day?
Rain, rain, rain, rain go away
Would you mind comin' back another day?
