

# Hollow

## Alice In Chains

Turning in circles, slowing down.  
Pulling against a closing out.  
Easy to feed on a weaker thing  
Harder to say what i really meanHollow as a mountain  
All tunneled and drilled below  
Hollow as a mountain  
Crowned with a cold, blue skyAll of colors turn to grey  
Don't even matter anyway  
Bleeding impressions where you were tied  
Can't really say how I lost your mindHollow as a mountain  
All tunneled and drilled below  
Hollow as a mountain  
Crowned with a cold...Hollow as a mountain  
All tunneled and drilled below  
Hollow as a mountain  
Crowned with a cold, blue skySilence! So loud! Silence!  
I can't tell my up from down.  
Silence! So loud! Silence!  
I can't tell my up from down.All of the faces life can show  
Withered and ugly, the one you knowHollow as a mountain  
All tunneled and drilled below  
Hollow as a mountain  
Crowned with a cold, blue skySilence! So loud! Silence!  
I can't tell my up from down  
Silence! So loud! Silence!  
I can't tell my up from down
