

Halo

Tim McGraw

Ohhh...

lets just cut down the middle

let it bleed and bleed out

I'll clean up the mess

baby you stand there and shout

cry, cry baby I can't hold us together paint me in a corner

cover me with rage

I'll take it like a circus lion

shy and in my cage

cry, cry baby I can't change the weather Chorus

baby I'll let go when you say so

try to let your heart fly free

I'll crawl outta my cradle and down into my black hole

and you just lay low under your halo I'll slip into the back room

fall into your mess

almost out of focus

Like a faded photograph

cry, cry baby I'm all out of answers (Chorus) (Instrumental) (Chorus) baby you just lay low under halo. Ohhh... Lets

just cut it down the middle

let it bleed and bleed out
