

# Little Girls

## Arab Strap

I will never love you  
Do what you will.  
I will never lick you  
The way I do so well.  
You now weaken your voice  
"ah, hey". I will never talk to you  
Do what you will.  
You will never make me smile  
The way you did so well.  
You now meet with your boys  
"ah, hey". Most of all I will never cry.  
My thoughts will never turn to you.  
I'll walk through this world making little girls happy.  
But not you, no not you. Do what you will.  
Do what you will.  
Do what you will.  
Do what you will.  
You will do what you will.  
You will do what you will.  
Do what you will.  
Do what you will.
