Janine

Written by ricky & marty wildeJanine - what's going on
Janine - I know that something sure is wrong
There's lights out on the road
And they're searchin' for youJanine - life wasn't fair
Janine - when you got home and no-one cared
But running from your life
You let the vultures get through
And they feed on you, they feed on youChorus:
So what you gonna do when the lights burn out janine
What you gonna do when your light burns outJanine - you want the truth
Janine - you'll find the pressure's now on you
You wanted all the world
But they've taken it all
And they're bleeding you, they're bleeding youSo, what you gonna do when the lights burn out janine
What you gonna do when your light burns outHeh kid, don't hesitate
Don't stick around now
I bet you can hardly wait
Oh what a time I'll give to you
But it's never trueJanine - you'll soon be there
Janine - you're on a wing and a prayer
But angels love their own
And they're reaching out for youJanine ..... oh janine
