Element Eighty

You're under me
I really love you
And I really hate you
You're under me
You're under me
You're under me
You're under me
I really want you
And I can never have you
You're under me
You're under me
You're under me
You're under me
And you forgot that I'm in control
And you forgot who owns your soul
Please won't you help me make sense of what I said I'd never be
Don't lay this down on me
I am the demon inside of you
I am the demon inside of you
I am the demon inside of you
I am the one inside
I am the demon inside of you
I am the demon inside of you
I am the demon inside of you
I am the demon inside of you
I'm inside you
