

# Far Pavillions

## ...And You Will Know Us by the Trail of Dead

New horizons, unclaimed lands  
Await us beyond the walls of our cantonment  
(I'll return to the Far Pavillions)  
You can't let it get you down  
You were raised on the edge of this unnamed ghost town  
(I'll return to the Far Pavillions)  
There, a million far Pavillions Gaze down from upon their heights  
Where their eyes, full of wonder, wait to greet you  
As you rise, feel the world you know divided up  
Above and below Let the roads lead you back  
to those places you lived  
Brick fields full of cut glass  
(I'll return to the Far Pavillions)  
Where the sidewalks strangled you  
As you cradled your friend as he died from gun wound  
(I'll return to the Far Pavillions)  
Past love and hatred lies our greatness Gaze down from upon their heights  
Where their eyes, full of wonder, wait to greet you  
As you rise, feel the world you know divided up  
Above and below
