

The Convent of Sin

Pungent Stench

This is the convent of sin
The clerics are touching the skin
of the novices - salivating with evil grin who joined to study catholic creed
and despise all sexual deed
but chaplains are goatish & horny indeed the spirit is willing
but the flesh is weak
sexual intercourse
suck it - bon appetite harassment is the norm
fornication at the convents dorm
religious education in it's purest form read the bible and try to spell
Amen the clerical trousers swell
Satisfaction of needs for sinners of hell The spirit is willing
But the flesh is weak
Give head suck the
Convents whoring clique So praise the lord
And please his servers
This lascivious horde Pastor or geek
A catholic prick
That needs to leak So take a shower
Warm and golden
At the convents tower Suck in the stall
During the mass
And swallow it all Is it Sodom or Gomorrah?
What kind of whoredom
It is penis plethora The convent of lust
The final doctrine
In cock we trust The path of the rector
Call it anal or backdoor
He's a rectal inspector Accept his benediction
This is no fiction
Praise sexual addiction Sodomy behind convent walls
Grand excess in holy halls
Masturbate in the confessional
& cum into the passionate
