

Into Me

Chantal Kreviazuk

Like a little girl, little girl
In another bad dream
I'm wakin' up
You're still next to me
When I go away, go away
When I turn the key
I'm petrified
Oh please don't leave
Cuz I'm finally starting to believe That you're not, you're not
Going anywhere, anywhere
You're not, you're not
Going anywhere, anywhere
Yes I'm finally starting to believe
That you're into me
Am I found out, found out
Oh can you see
I'm trapped in a world
I can't get free
You're the, you're the, you're the only thin
That can save me now
I'm in too deep Cuz I'm finally starting to believe
That you and me and this thing it's really happening And you're not, you're not
Going anywhere, anywhere
No you're not, you're not
Going anywhere, anywhere
[x2]
Yes I'm finally starting to believe
That you're into me
Me the beast
Me the flower
Me the dragon in my tower
Me the bull with my horns
You give it all and I want
I want more... You're not, you're not
Going anywhere, anywhere
No you're not, you're not
Going anywhere, anywhere
[x2]
Yes I'm finally starting to believe

Yes I'm finally starting to believe
That you're into me
