Worry About You

Ivy

Bye bye baby don't be long
I'll worry about you while you're goneBye bye baby don't be long
I'll worry about you while you're goneI think of you in my dreams
You'll never know just what you mean to me, to meBye bye baby don't be long
I'll worry about you while you're goneBye bye baby don't be long
I'll worry about you while you're goneI think of you night and day
I'll never know just what you meant to say, to say
