Jump Into (feat. Maxine Marcus)

Slaptop

[Verse 1]
I'm at the edge, all around
I'm face to face with myself as I keep, looking down
Harder to step into
Place, I never knew
Knock me down, knock me down

[Chorus]
I can never hide from words you say
Holding on to black and white, I'm gray
There are bigger mountains left to move
Standing here with everything to prove
Jump into

[Verse 2]
I'm letting go
Breaking free
Trying to find my own balance
But I know that you'll never see
Wipe away your tears
They were wasted years
Knock me down, knock me down

[Chorus] x2
I can never hide from words you say
Holding on to black and white, I'm gray
There are bigger mountains left to move
Standing here with everything to prove
Jump into
