# Je T'aime Encore

## Celine Dion

Call the village band out, bid me goodbye
Everybody stand outside and cry
Never thought so many, thought me so dear
I'd be happy any place but here
One way ticket take me anywhere
North bound, south bound, I don't even care
I know the grass is greener there
People in the city, leave you alone
Everyday is pretty much your own
One among the many, year after year
I'd be happy any place but here
One way ticket take me anywhere
North bound, south bound, I don't even care
I know the grass is greener there
Look over the passing train
And there I am
No matter were I am
I'm passing through
One way ticket take me anywhere
North bound, south bound, I don't even care
I know the grass is greener there
One way ticket take me anywhere
One way ticket take me anywhere
