For I Am Spartacus

Sydney

If I could kill with words at will
Then in this song I'll stage your final breath
With something soft and quiet
And you know I'll be there till your endAnd what's with all these little things
Always coming back around to haunt me
You know I'll take back everything
So why'd you waste your timeShe screams loud as her subtle words rest deep inside me
Nothing could ever stop you, nothing would ever stop you
So I'll sing loud hope the subtle words rest deep inside you
Because that's what you wanted, that's what you wantedEnd this silence don't even think its bad for you
Lets take this violence and turn it into something we can use
Don't you hate the way it hurts to say my name?
And don't you love the way I hate to play this game?
If everything that's good is bad for you then why'd you waste your timeShe screams loud as her subtle words rest deep inside me
Nothing could ever stop you, nothing would ever stop you
So I'll sing loud hope the subtle words rest deep inside you
Because that's what you wanted, that's what you wantedShe screams loud as her subtle words rest deep inside me
Nothing could ever stop you, nothing would ever stop you
So I'll sing loud hope the subtle words rest deep inside you
Because that's what you wanted, that's what you wanted [x2]
