

# Jody 3 Moons (Skit)

## Riff Raff

Hey everybody, this is the moon talking to you  
I'm calling in from outer space, it's a pretty far distance  
But I, I figured I'd reach out and talk to you  
This is Jody Three Moons talking to you  
Now, there's a lot of problems in people's eyes  
And there's a lot of bad things, and a lot of good things  
Sometimes the bad things seem to outweigh the good things  
But it's not always gonna be like that  
There's some memories we can't get back  
Some of the good cherished memories that we just can't remember  
Where do they go?  
This is the moon talking to you, it's the actual moon  
I want you to be nice to everybody you're around  
And it's okay to just go ahead and let them tears fall like waterfalls  
Like Versace little rain drops  
You close your eyes and you dream about a better place  
This is the moon talking to you, simply the moon
