Body Talk

Poison

Like thisI've never seen a woman, baby
That looks quite the way you do
The way you shake that thing now, honey
Can't take my eyes off youThe way you work it, honey
It bring me to my knees
You give me what I'm looking for
I'll give you what you need and I saidI got the one thing you want
Get it all night long
You got the one thing I need
When your body talksI hear it talking to me
Say, get it all night long
Woman, why can't you see?
You're my one thingGot a world of trouble, baby
It's going on inside my head
Playing your game, got me half insane
Trying to make sense of every word you saidStop beating around the bush
You're just wasting time
Let's get down to the business, baby
And lay it one the line and I saidI got the one thing you want
Get it all night long
You got the one thing I need
When your body talksI hear it talking to me
Say, get it all night long
Woman, why can't you see?
You're my one thingTell me the news, let's hear your story
You think you got nothing to lose
Better use it up 'fore it gets old, baby
Becomes yesterdays newsYou got the one thing I want
Get it
You got the one thing I need
When your body talksI got the one thing you want
Get it all night long
You got the one thing I need
When your body talksI hear it talking to me
Say, get it all night long
Woman, why can't you see?
You're my one thingI got the one thing you want
Get it all night long
You got the one thing I need

When your body talksI hear it talking to me
Say, get it all night long
Woman, why can't you see?
You're my one thing
