

Cruise Night

John K. Samson

I know it's annoying borrowing your brother's car
But mine won't start and it's Sunday.
Soon a line of headlights peering down the avenue
Could find you there in a lawn chair
Next to our old El Camino with the racing stripes
On cruise night.
Dude, just make it happen.
I can't take another week of feeling lame
With the same old tin can on my ten speed
Circling the Dairy Queen while jacked up rides idle at me.
I wanna rock the RPM between the reds and greens
On cruise night
Drive a while in one direction and we'll turn around
On cruise night.
