

Little Spark

Jessie Baylin

In a little while
Things will be much better
In a little while
Sew my soul together
In a little while
We'll make up for lost time
In a little while
Holding out for what's mineI've been looking for you in the dark
Give me just a little spark, ohIn a little while
Sad eyes turn to laughter
In a little while
Happy ever after
In a little while
You know it takes a long time
In a little while
Holding out for what's mineI've been looking for you in the dark
Give me just a little sparkEverybody wants to be loved
Tell me what it's gonna be, oh
You know that I wanna be lovedLooking for you in the dark
Give me just a little spark
Give me just a little spark
OhIn a little while
Things will be much better
In a little while
Two hearts burn together
