

# Got It Right This Time (The Celebration)

**Keith Urban**

She believes in me like I've been tryin' to do  
I'm seein' things I've never seen before  
Ever since you came into my life  
I've been a better man  
Run, run, running, I was running scared  
Always lookin' for a place to leave  
And I couldn't seem to find where I belonged  
'Til she took my hand  
We can make this work out baby, I know it's true  
Can't picture myself with no one but you  
And I think I got it right this time  
Oh, yeah  
All of my life I've been lookin' for someone  
Who believes in love the way I do  
And I know I've make my share of big mistakes  
But girl I promise you  
That we can make this work out baby, I know it's true  
Can't picture myself with no one but you  
And I think I got it right this time  
True believers always find each other  
And here we are  
Always knew that you were out there just waitin' on me  
For me to find my way, find my way to your heart, oh, yeah  
We can make this work out baby, I know it's true  
Can't picture myself with no one but you  
And I think I got it right this time  
Yeah, after all the crazy days I made it through  
I can't picture myself with no one but you  
And I think I got it right this time  
Oh, yeah
