Love Mistake

Heart

K.C., take another sip-o-wine
You gotta get her off your mind
You can talk about your heartbreak to me
Ho, K.C. I wish it could be easy
Just another lesson of the heart
K.C., we were feelin' out of place
So we made our own escape
In that New York cafe place to be
Outsiders, travelers, you and me
We were laughing about it, kept us out of reach
I won't forget that night
I won't forget that light
Through the windows and the lace
Making patterns on your face
Exposed with all your pain

I know it hurts the worst
That very first love mistake
You said, "We'll still be sitting here again someday"
Laughing at ourselves this way
After time has healed and made it right
We'll still be looking in each other's eyes
And through it all, it's friends who will survive
I won't forget that night
I won't forget that light
Through the windows and the lace
Making patterns on your face
Exposed with pain
I know it hurts the worst
That very first love mistake
