That's the Way It's Meant to Be

The Features

Little fingers
Little toes
Little tempers that come and go
It's the little things that matter most
Like the monograms on your clothesGonna stand right by your side
Wipe your nose and dry your eyes
Zip your dress and tie your shoes
There's nothing i won't do
Gonna love you 'til i die
Cause i'm yours and you are...And that's the way
It's meant to beCall a doctor
Call a king
Someone to witness all the joy you bring
Oh your love is such a beautiful sight
Just wanna hold you and squeeze you tightGonna take you by the hand
Try to make you understand
Take you everywhere i go
Teach you everything i know
We can laugh until we cry
Cause i'm yours and you are mineAnd that's the way
It's meant to beLong as you're with me
Everything is alrightGonna tuck you in tonight
Fall asleep right by your side
Take a swift kick in the head
When you push me out of bed
Steal the cover, i don't mind
Cause i'm yours and you are...And that's the way
It's meant to beAnd that's the way
It's meant to be
