

Regulators

I Was Totally Destroying It

Gussied up like a dog in the summer, downtown
I guess I waited too long
Crack a smile, split your lip, put some hips in it, girl
I guess I waited too long
Smooth it down, pat it dry, twist a finger and curl
I guess I waited too long
Blood wants blood like a drunk wants a bottle of crown
I guess I waited too long
Regulators
Where's my mister?
He's been gone so long, so long
So sister, so listen up, give it up, give it up for us now
I guess you waited too long
I'm pissing clear in a drought in the desert somehow
I guess you waited too long
You're coming off like it's a job lighten up for us now
Don't make me wait too long
Regulators
Where's my mister?
He's been gone so long, so long
Regulate- they go two by two
