Set Me Free

Hindi Zahra

Rivers of water from my eyes to my chin
No consolation I could find in your skin
When you came in (when you came in)
When you came in (when you came in)Please set me free
Let the fire burn in me
Please set me free
Let the love shine in me
I tell you please set me free
Cause look what you do to me
Please set me free
Oh ohI know you'll never be the man I used to know (never be the man)
I know you'll never be the man I used to love (no way)
Cause with your black eyes
And with your wild heartPlease set me free
Let the fire burn in me
Please set me free
Let the love shine in me
I tell you please set me free
Cause look what you do to me
Please set me free
Oh ohAway from your troubles (baby), keep me away
Away from your troubles now, keep me away
Away from your troubles (baby), keep me away
Away, keep me awayPlease set me free
Let the fire burn in me
Please set me free
Let the fire burn in me
Please set me free
Let the love shine in me
Please set me free
Let the love shine in meShine, shine, shine, shine
Come on, come on, come on, come onCome on and break those chains
And leave me alone now
'Cause you don't know how to give me good love
And mine is never enough
Open up the door and let me see what is real life
Cause I don't wanna let the time
Pass me by pass me by pass me by
