

God Song (acoustic)

Bad Religion

And did those feet in ancient times
Trode on America's pastures of green?
And did that anthropocentric god
Wane with their thoughts and beliefs all unseen? I don't think so, he's up there with the others laying low
Vying with those, who you've traded your life to to bless your soul Have they told you how to think
Cleansed your mind of sepsis and autonomy?
Or have you escaped from scrutiny
And regaled yourself with depravity? Now we all see, 'Religion is just synthetic frippery
Unnecessary in our expanding global cultural efficiency'
