

Fire Island

Fountains of Wayne

Driving on the lawn sleeping on the roof will be naked in the pool while our parents are on Fire Island drinking
all the alcohol all the kids from school Cranking up the tunes 'til the windows break feeding chocolate dog 'til
the feathers all come out jumping on the couch We're old enough by now while our parents are on Fire Island
we don't need no babysitter to take care of each other we don't need no father or mother when you went to
steamboat springs We're old enough by now don't you remember, last december don't worry 'bout a thing
