

# I'm Over You

Rebecca Lynn Howard

You said the sun wouldn't shine today  
Well, baby you were wrong  
I put on my purple scarf  
And I'm going out to play  
And I'm sorry, but you can't come along  
You had your chance to be with me  
Then you did what you did  
And I threw your stuff out in the street

[Chorus:]

And ice cream tastes, just a little better  
Water on my tongue, feels a little wetter  
And I think I'll be a fancy jet setter  
Too bad we can't be together  
To enjoy this beautiful weather  
I'd rather be left than alone  
And crying at home over you  
I'm over you, yeah

I know your plan  
You're gonna see me out and kiss me  
And say you miss me back  
And it's gonna be a little awkward for you  
'Cause I won't kiss you back  
You had your chance, to be with me  
But you acted like a jerk  
Now I'm loving being free

[Chorus:]

Maybe this song won't make it out my living room  
But maybe some day, you log on to You Tube  
And see the video I'm making right now for you  
I'm over you  
I'm over you  
I'm over you  
I'm over you  
Yeah  
I heard you still love me
