

# Original Species

## Audio Adrenaline

Now my heart and my mind agree  
A supernatural selected me  
I see a plan so grandiose  
My very own Galapagos  
God laid down and He began to trace  
An image that He could embrace  
Then He smiled down on on his plan  
And from the dust, He made a man  
I'm an original species  
More enlightened than Nietzsche  
I'm sure you'd like to meet me  
'Cause I am loved  
By the Maker who's so clever  
I was made to live forever  
Though my body turns to sand  
My soul is in His hands  
A breakthrough theory of origin  
A simple truth that's always been  
Fingerprints have been left behind  
That point us to a master mind  
I'm an original species  
More enlightened than Nietzsche  
I'm sure you'd like to meet me  
I am loved  
By the Maker who's so clever  
I was made to live forever  
Though my body turns to sand  
My soul is in His hands  
Stars in the sky  
There to please my eye  
The cosmos in His command  
He has time to hold my hand  
I'm an original species  
More enlightened than Nietzsche  
I'm sure you'd like to meet me  
'Cause I am loved  
By the Maker who's so clever  
I was made to live forever  
Though my body turns to sand

My soul is in His hands  
I'm an original species  
More enlightened than Nietzsche  
I'm sure you'd like to meet me  
'Cause I am loved  
I am loved
