

# What About Love

## 'Til Tuesday

Living on silence  
Living by the book  
You get it to a science  
Of living on one good lookSo put out all the fires  
And blow away the smoke  
I'm getting pretty tired  
Of living on hopeSo what about love, baby?  
What about making room for two?  
What about love, baby?  
What about you?Living on daydreams  
Walking in my sleep  
And nothing is as it seems  
When you're in so deepSo put out all the fires  
And blow away the smoke  
Unless you're getting tired  
Of living on hopeSo what about love, baby?  
What about making room for two?  
What about love, baby?  
What about you?What about love, baby?  
What about making room for two?  
What about love, baby?  
What about you?What about love, baby?  
What about making room for two?  
What about love, baby?  
What about you?What about you?  
What about you?  
What about me?
