

Use of Time

311

With the words slaying me slow
The verbs that just don't flow
Confusing use of time Partial stoning of the heart
Waiting for something to start
Confusing use of time But the trying again
Makes me think it's all gonna end
Confusing use of time But every time I turn the volume down
All that I hear is the deafening sound
Of your hearts pound But the trying again
Makes me think it's all gonna end
Confusing use of time Today, the longest day
Hearing repeating things you'd say
Confusing use of time Can you hear the void I describe
What can I say the vacancy sounds like
Confusing use of time But the trying again
Makes me think it's all gonna end
Confusing use of time
