Rock Steady

Dawn Robinson

Rock steady baby!
That's what I feel now
Let's call this song exactly what it isStep 'n move your hips
With a feelin' from side to side
Sit yourself down in your car
And take a rideAnd while you're movin'
Rock steady
Rock steady baby
Let's call this song exactly what it is
(What it is -what it is - what it is)It's a funky and low down feelin?
(What it is)
In my hips from left to right
(What it is)
What it is
Is I might be doin'
(What it is)
This funky dance all night
Oh!
(Let me hear ya gotta feelin' in the air)
Oh!
(Gotta a feelin' an ain't got a care)
Oh!
(What fun to take this ride
Rock steady will only slide)Rock steady..... rock steady
Rock steady..... rock steadyStep and move your hips
With a feelin' from side to side
Sit yourself down in your car
And take a ride
While you're movin' rock steady
Rock steadyLet's call this song exactly what it is
(What it is -what it is - what it is)
It's a funky and low down feelin?
(What it is)
In my hips from left to right
(What it is)
What it is - is I might be doin'
(What it is)
This funky dance all night
Ooooooooooooh

(Wave your hands up in the air
Got the feelin' an ain't got a care)
Ooooooooooooh
(What fun to take this ride)
(Rock steady will only slide)Rock steady
Rock steady... woo!
Rock steady(Rock.... steady!... rock... steady!)(What it is)
It's a funky and low down feelin?
(What it is)
In my hips from left and right
(What it is)
What it is
Is I might be doin'
This funky dance all nightOoooooooooooh
(Wave your hands up in the air)
Ooooooooooooh
(Got a feelin' an ain't got a care)
Ooooooooooooh
(What fun to take this ride)
Ooooooooooooh
(Rock steady will only slide)Rock steady
Steady it baby!
Rock....rock steady
FADES-
Baby
(What it is)
Baby baby
(What it is)
Baby
(What it is)
Baby...
