

# Lonesomeville

[William Michael Morgan](#)

Still not used to you being gone  
It's been hard for me to just move on  
I'm stuck in a place I don't wanna be  
If you change your mind and come looking form eI'm living here in lonesomeville  
Down the street just over the hill  
A little house two trees in the yard  
And one great big broken heartIt's always raining and the sun don't shine  
When you live on solitary drive  
It's a small community population me  
Here in lonesomevilleI poor me some whiskey when I get home from work  
Sit on the couch and do nothing but hurts  
I finally cry myself to sleep  
It's an everyday routineWhen you're living here in lonesomeville  
Down the street just over the hill  
A little house two trees in the yard  
And one great big broken heartIt's always raining and the sun don't shine  
When you live on solitary drive  
It's a small community population me  
Here in lonesomevilleSoloIt's always raining and the sun don't shine  
When you live on solitary driveit's a small community population me  
If you ever change your mind  
I won't be hard to finde  
Here in lonesomeville
