

Life Is a Long and Silent River

Atrocity

Ten more summers pleased the land
Ten more winters numbed the landscape
Time is running quickly
But in my brain a terrible dream never ends
I try to escape from my past
I'm damned to suffer a whole life!
Life is a long and silent river
No real friends - for the little girl
Nobody understands - what's wrong with her
Her classmates - cheat her all the time
The silent girl - is discriminated against
Life is long and silent river
People shouting at me
"You stupid girl!
How strange you are - never spoke!"
I try to escape from my past
I'm damned to suffer the whole life!
