

# A.K.A. (feat. T.I.)

Jennifer Lopez

La-la-la-la-la-la-la-la  
Oh-oh-oh-oh-oh-oh-oh  
Oh-oh-oh-oh-oh-oh-oh  
Can you hear me now? This is not the girl you used to know  
Talking to you now  
I don't think you want me to explode  
It's the countdown It took you too long to find out  
What you want, right now  
I'm too gone to stay around  
Switching up my style Now our faces never stick around  
A.K.A, never hold you down  
A.K.A, can't figure it out  
A.K.A, you don't know me now  
Oh you don't know me now  
A.K.A  
A.K.A  
Oh oh oh, you don't know me now, A.K.A  
You don't know me now  
Oh, you don't know me now They all seem to watch you when you go  
I was here, oh, I was here before  
What goes around, comes back around for sure  
So I'mma let you, I'mma let you know oh oh It took you too long to find out  
What you want, right now  
I'm too gone to stay around  
Switching up my style Now our faces never stick around  
A.K.A, never hold you down  
A.K.A, can't figure it out  
A.K.A, you don't know me now  
Oh you don't know me now  
A.K.A  
A.K.A  
Oh oh oh, you don't know me now, A.K.A  
You don't know me now  
Oh, you don't know me now Ay, what it is now shawty (what it is)  
You was fuckin' with a sucker  
But you dealin' with a real now shawty (for real)  
Anybody got a problem they can feel my forty  
Tell me how you feel now shawty (how you feel)  
God damn, is you as good as you look

Standing in the hood but you look like you came off the page of a book

Pretty face and your ass like a hook

In the rain, like a crab when I look

Whew, you are such a distraction

You act like you want it I give you the business

Tear that shit up, girl, as God as my witness

Would you bend if you don't know me?

Honey I'm considered your OG

Bitch don't like life 'cause you don't want me

Think you could do better? Well we sure gon' see

Hold up, back in 04 drive, you don't know me

The moral of the story, you don't know me

Got there right now, I'm the man right now

Anybody get it, we can get it in right now

Listen one thing still in the pen right now

Killer gun, take your cell, I'd be dead by now

But stare right now, get bread like wow

When the drop hit, now get head like ow

We let that AK go by J. Lo You don't know me now

Oh you don't know me now It took you too long to find out

What you want, right now

I'm too gone to stay around

Switching up my style Now our faces never stick around

A.K.A, never hold you down

A.K.A, can't figure it out

A.K.A, you don't know me now

Oh you don't know me now

(Tell 'em, tell 'em) A.K.A

(Tell 'em, tell 'em, tell 'em) A.K.A

Oh, you don't know me now, A.K.A

You don't know me now

Oh, you don't know me now
