Heat Rises

Dallas Smith

Sparks gonna fly
From the ambers of these rarely see tonight
The flame's gonna dance from you and me
Like when fire and wind collide
Get lost in the sweet red wine
And no one bottle tonight heat rises
Kisses drip like wax from the candle
Too hot to handle
Tonight heat rises
Spreading fast, catching wild
Burning on, take a flash
You and I
Tonight heat rises
Heat rises

If stick on a pillow
Fog sweating down the window pane
Something in your voice
Then you say my name
Yeah, it melts the pain
Wonder walls of my heart
And I'll do my part
If you finish what you started
Light up the dark
Roll the flame baby
Hit me again babe
Let's take it a little too far

Sparks gonna fly
From the ambers of these rarely see tonight
The flame's gonna dance from you and me
Like when fire and wind collide
Get lost in the sweet red wine
And no one bottle tonight heat rises
Kisses drip like wax from the candle
Too hot to handle
Tonight heat rises
Spreading fast, catching wild
Burning on, take a flash

You and I
Tonight heat rises
Heat rises
