

Rub a Dub

311

Ooh, what else can I do?
Ooh, what else can I do?
Ooh, face in a screw
Ooh, racing to prove
You never remember
The blossom sender
Still in a rub a dub style
Long time, you don't know what I'm doing, whoa
Long time, see troubles are brewing, yeah
Stick to the way you rock it
And know that you'll cope with that
Not gonna let it sit until I say how dope was that
Keep your head pumping 'til you get in the zone
Not giving up, not going home
Stick the way you rock it, just do it real slow
No one can really say 'cuz nobody really know
Only thing that matters if it's funky to you
You got a choice of what you can do
So, ooh, what else can I do?
Ooh, what else can I do?
Ooh, face in a screw
Ooh, racing to prove
You'll never remember
The blossom sender
Still in a rub a dub style
