Three Suns and One Star

Down

All felt is hope to spilling over
Needs are a passing memory fear not worthy
Belief, a martyr's burden
Heaved upon capable shouldersDissuade your charge
Arrive in commonplace with the elect
The furthest plateau
Inside the souls of saintsThe old dog has to learn a new trick and more
Or the next trick will be on him
I've drank the oceans dry, I've stopped the time
Embraced the riddle of regret
(Again and again)Desire, haunt me long
The light of three suns and one star
Watch over meA square will never fit a circle
No hope, no joke, both bookends burned
I've drown in oceans mine, I woke the dead
And still the dry bones live again
(And again with me)Desire, haunt me long
The light of three suns and one star
No higher, keeps us strong
The light of three suns and one star
Watching over meIn me, watching closely over me
In we, moving within you and me
In deep, our own ideology
Oh yeah, yeahIn me
In me
In meIn me, staring through and through to me
X-ray, hanged for all to see
Naked, frenzied and we're free
Our own ideologyDesire, haunt me long
The light of three suns and one star
No higher, keeps us strong
The light of three suns and one star
Watch meThree suns and one star
(Watch over me)
Three suns and one star
(Watch over me)Three suns and one star
(Watch over me)
Three suns and one star
Oh yeahThree suns, one star

Three suns, one star
Three suns, one star
