

Core Dead

5 Star Grave

Flickering chains of doleful regret
The edge of supremacy painted bloodred
Used and abused just barely breathing
A chemical addiction in shape of a man
Legs fail to carry me forth [surrender]
Cold fear is taking control [betrayer]
Broken unable to watch [the way I feel now]
Frozen just like a corpse [another failure]

D-E-A-D
Fractal crimson red
D-E-A-D
Manipulatin' every breath
D-E-A-D
Waitin' for the final blow
D-E-A-D
Flowin' down my throat...
And still I'm cravin' for more

I've seen the world in shades of red
I've seen the future it looks so dead
A forlorn cry to the endless mist
A shallow grave down into the abyss
I've seen the spectre of another sun
Two steps ahead and six feet beyond
I've seen the glory in a plastic sack
Dispatched home for a grave to erect

Massacre's rivers flowing bloodred
Funeral fumes the stench of the dead
A ravenous thirst devouring my soul
The echoes of war lost far in the cold
Rain is starting to fall [who cares now]
Washin' the dark of my soul [too late god]
Ravens gathering fast [endless morgue]
Who knows if I'll ever reach [tomorrow]

D-E-A-D
Fractal crimson red
D-E-A-D

Manipulatin' every breath
D-E-A-D
Waitin' for the final blow
D-E-A-D
Flowin' down my throat...
And still I'm cravin' for more

I've seen the world in shades of red
I've seen the future it looks so dead
A forlorn cry to the endless mist
A shallow grave down into the abyss
I've seen the spectre of another sun
Two steps ahead and six feet beyond
I've seen the glory in a plastic sack
Dispatched home for a grave to erect

D-E-A-D

[solo]

D-E-A-D
Fractal crimson red
D-E-A-D
Manipulatin' every breath
D-E-A-D
Waitin' for the final blow
D-E-A-D
Flowin' down my throat...
And still I'm cravin' for more

I've seen the world in shades of red
I've seen the future it looks so dead
A forlorn cry to the endless mist
A shallow grave down into the abyss
I've seen the spectre of another sun
Two steps ahead and six feet beyond
I've seen the glory in a plastic sack
Dispatched home for a grave to erect

The sky is turning red
