

United (L.A.O.S. Remix)

Our Stolen Theory

No one gets left behind
This time theres no casualties
This time I look the other way other way
Get used to whats coming now, is that all way too familiar
Is that what you want you want One voice united
We make the choices
One change divided
We make it united Something new we search, something that varies from this all
Is that what you want you want
We get used to whats surrounding
Thats all way too familiar
But that's not what you want you want Well it's you and me
We let ourselves to get burned
It's you and me
This gotta be love and learn
