Grind 2 Halt

Static-X

Pitch slap, deep space, techno echo And gate and filter the thoughts Short break, electric scramble Take what you thought was yoursTribal Bible, punching metal Black fills up every knot Scratch up synthetic substance Break up the fallGrind 2 halt, slam it shut Never stop, make the cut Grind 2 halt, slam it shut Never stop, make the cutCarve confusion, bright illusion Drive to burn up the road Visions begin to glow It starts to heavy the loadStill I'm liable, twist in my side Black fills up every knot Scratch up synthetic substance Break up the fallGrind 2 halt, slam it shut Never stop, make the cutCarve confusion, bright illusion Drive to burn up the road Visions begin to glow It starts to heavy the loadStill I'm liable, twist in my side Black fills up every knot Scratch up synthetic substance Break up the fallGrind 2 halt, slam it shut Never stop, make the cut Grind 2 halt, slam it shut Never stop, make the cut
