

How You Not Gonna

B5

You say, you don't have time to worry 'bout where I be going
I'm on the grind making move, it's about to start showing
We gonna be fine, I want you around when the chips start flowing
Don't stop rolling 'cuz I be rolling I think you deserve the world that's what I'm gonna give
Do you thank me, even or lately
They tell me you're leaving, I'm not believing
All the rumors hating, they all permissive Your hair, skin, lips, skin touch
Everything about you just
Invites me, excites me
To wanna see you happy girl Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it? Your hair, skin, lips, touch
Everything about you just
Invites me, excites me
To wanna see you happy girl Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it? You don't have time to just wait up for me, girl I need
You to be right in my corner every step of the way no
We gonna be fine, I want you around when the chips start flowing
Don't stop rolling 'cuz I be rolling I think you deserve the world that's what I'm gonna give
Do you thank me, even or lately
They tell me you're leaving, I'm not believing
All the rumors hating, they all permissive Your hair, skin, lips, touch
Everything about you just
Invites me, excites me
To wanna see you happy girl Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it? Your hair, skin, lips, touch
Everything about you just
Invites me, excites me
To wanna see you happy girl Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it? Your hair, skin, lips, touch
Everything about you just
Invites me, excites me

To wanna see you happy girl
Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it?
Your hair, skin, lips, touch
Everything about you just
Invites me, excites me
To wanna see you happy girl
Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it?
Your hair, skin, lips, touch
Everything about you just
Invites me, excites me
To wanna see you happy girl
Cars, house, cash, you see
All expensive jewelry
I got it, you can grab it
So, how you not gonna have it?
You say
