

Get Together

J*Davey

it's the fire in the sky
in the blinking of an eye
up there somewhere . . .
it's like the only reason why
it's the never say goodbye
yeah there somewhere . . .
& if ur looking for a high
well i surely got the guy
let me take u there . . . & if u feel it in the air
lets go away somewhere
i wanna feel it in the air
lets go away somewhere
& if u say u really care
lets go away somewhere
i wanna see u over there
lets go away somewhere together . . .
lets get together
lets get together
lets get together . . . ur like my only reason why
i can never say goodbye
try there somewhere
it's like the only thing i know
u should really wanna go
let me take u there & if u feel it in the air
lets go away somewhere
i wanna feel it in the air
lets go away somewhere
& if u say u really care
lets go away somewhere
i wanna see u over there
lets go away somewhere together . . .
lets get together
lets get together
lets get together . . . right there somewhere
i wanna take u there
i wanna show u what i know
if u really wanna go
we can take it there & if u feel it in the air
lets go away somewhere

i wanna feel it in the air
lets go away somewhere
& if u say u really care
lets go away somewhere
i wanna see u over there
lets go away somewhere together . . .
lets get together
lets get together
lets get together . . .fire in the sky
blinking of an eye
up there somewhere
only reason why
never say goodbye
yeah there somewhere
if ur looking for a high
well i surely got the guy
let me take u there
& if u feel it in the air
lets go away somewhere
i wanna feel it in the air
lets go away somewhere
& if u say u really care
lets go away somewhere
i wanna see u over there
lets go away somewhere together . . .
lets get together
lets get together
lets get together . . .
