

# Last Night (feat. Wale)

Sebastian Mikael

What you talking bout?  
Know I've been to Roma  
Well let me call you out  
When you put your crown  
You got a little style  
Let me put it down  
Until you walking on the cloud  
Look, the time's now, I'm intrigued  
Whenever I browse  
I'll be sure you get things  
Yeah, see what I did there  
Slip inside of her body  
Until she get thereI can't lie when I watch my baby  
Her lip-gloss pop, just came from the spot  
Hair done too but girl that was for  
Four shots ago  
No you can't believe that you didn't feel me  
It's you as the same that last nightGirl I swear to God people pay for a smile like yours  
And I'm loving it, yeah, and I'm loving it, I'm loving it  
Girl I swear to God they'll pay for an ass like yours  
If it wasn't their yeah yeah  
And I'm loving it, yeah, and I'm loving it  
You wanna know if we can make this confidential  
Between me and you (We already did it)  
Between me and you (We already did it)Remember when I say I tried to find something to get into  
I was talking bout you  
We already did it  
I was talking bout youI can't lie when I watch my baby  
Her lip-gloss pop, just came from the spot  
Hair done too but girl that was for four shots ago  
No you can't believe that you didn't feel me  
It's you as the same that last nightThis ain't real baby  
What they talking bout  
Ain't no matter that's a lie  
Call for Lauren out  
Now can you deal with it?  
I'll probably ring and roll  
Cos I never tell a woman  
Where my body call

Let me tell you about last night  
I don't remember much of last night  
How can I say I'm keeping it polite  
Laugh once but she came twiceI can't lie when I watch my baby  
Her lip-gloss pop, just came from the spot  
Hair done too but girl that was for four shots ago  
No you can't believe that you didn't feel me  
It's you as the same that last nightI swear to God and I promise I won't tell nobody  
The privacy is safe with me (I'm loving it, yeah I'm loving it)  
Girl I swear to God, I wanna get plenty time to test you  
And I'm loving it, and I'm loving itYou wanna know if we can make this confidential  
Between me and you (We already did it)  
Between me and you (We already did it)Remember when I say I tried to find something to get into  
I was talking bout you  
We already did it  
I was talking bout youI can't lie when I watch my baby  
Her lip-gloss pop, just came from the spot  
Hair done too but girl that was for four shots ago  
No you can't believe that you didn't feel me  
It's you as the same that last night
