All Night Blue

John Prine

You've got a life somewhere without me
I've gone on without you
Hasn't been easy getting used to being lonely
And tonight is an all night blueAnd I wonder how you look
Who looks at you in your nightgown
I can almost feel your body
Your warm and loving body when I lay downIt's an all night blue
Remembering you
It's an all night blue
Wondering who's loving you all nightWell, it hurts me to see that you're happy without me
'Cause I still need you
I just drank up my heart, set it empty on the table
'Cause I ain't got nothing better to doStill I wonder how you look
Who looks at you every morning
I can still feel your warm breath
You kissing me on my chest, I'm just dreamingIt's an all night blue
Remembering you
It's an all night blue
Wondering who's loving you all nightIt's an all night blue
Remembering you
It's an all night blue
Wondering who's loving you all night
